

# 2008 WATER TREATMENT BUYERS' GUIDE

A valuable resource for future reference, our 2008 Water Treatment Buyers' Guide is organized into the following categories: chemical feed equipment, contaminant removal, drinking water systems, filtration, ion-exchange equipment, pH neutralization, ultraviolet equipment and other. Whether you're in the market for dry pellet chlorinators or disposable filters, whether you're looking for testing kits or for arsenic, nitrate and other contaminant removal, or whether you simply need information on small residential or bigger commercial softening units, it's all indicated here.

If you already provide treatment options and are looking to expand, or if you are considering adding water treatment to your service offerings, you'll have on hand a quick reference guide as to which suppliers offer what products, as well as how to contact them. The companies included provided their information, so you can rest assured you have the most current listings available.
